Dear Gail. Nice surprise to get your note, info, + Tentative order - I've been debating the possibility of the latter since hearing from you. I haven't got a gas kiln at present, hope to have one during the summer, could borrow one for a firing but rather far away... I'd love to try a set soon, since that to my own purpose, but am a little hesitant about being burdened by a commitment with a deadline — am writing Sharon Woyat advising her as aforesaid + giving her a rundown on prices as requested by you — have no idea how they relate to Vancouver prices as am prior going by what Herta Laffin charges on Hornby Island, to being a reasonable, + practical chap...

2.

Glad your plates etc are serving you well, if you are ever up this way, call by!

Thank you for the CABE stuff, glad to have it as am somewhat out of touch + will probably remain that way until I'm producing more —

Hope to be in touch again soon —

Cheers

Judy —
